Digitising the Library's collections

The Library's digitisation process of the collections is ongoing and highly valuable.

**Digitisation Strategy** [1]

The Library plans to create and preserve digital material on a scale never before seen in Australia.

**Digital Excellence Program (DEP)** [2]

Digitising its most iconic collections and renewing the Library’s underlying infrastructure and systems.
Open Digitisation Partnership Program [3]

In order to respond to the increasing requests for more of the collection to be made available online, the Library has established this innovative program.

Eligible agencies (including local, State and Federal government) can access suppliers assessed by Library specialists
