

## Know your drug facts – trivia quiz questions

Run a drug and alcohol free Trivia Night in your library – incorporate the Drug Facts Trivia Questions as one round. Other categories could include: popular culture and books and movies about drugs or true crime.

### Case study: Kincumber CDAT gets trivial

As part of its annual 'Trivialities' event, Kincumber CDAT invited teams to compete against each other in an evening of alcohol and drug free fun. The popular annual quiz night requires each team to include at least two young people. It thereby aims to dissolve barriers between different age groups while providing information about alcohol and other drug use in the community.

Several dozen people from the local area attended this year and answered questions that demanded the combined knowledge of different generations. One round focused on trivia specific to alcohol and other drugs, raising awareness about AOD use and busting a few myths – and surprising some recently retired federal police officers who attended the event!

From CDAT Action – June 2016
