Quick Guide - Converting a Vol-Fol or Lot/DP number to a street address (Torrens title)

Background

The records in the Historic Land Records Viewer (HLRV) do not contain street addresses. This search will enable you to convert a Lot/DP Number or a Volume and Folio (vol-fol) number to a street address. It is known as a reverse street address.

The quickest way to convert either a Vol-Fol no. or Lot/DP No. to a street address is through the NSW Land Registry Services (NSWLRS) website.
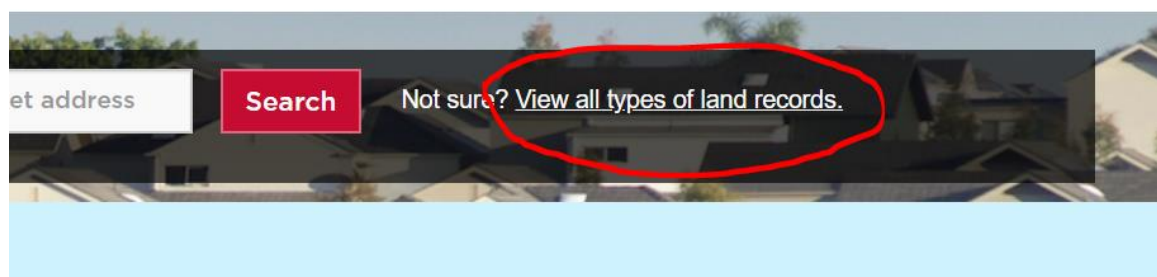

Go to http://www.nswlrs.com.au

1. Select NSWLRS Online portal

2. Tick the box to accept the terms and conditions and click on the red **Proceed** button

3. Click on **View all types of land records** (to the right of the search bar as shown below.

4. Find "Reverse street address enquiry" on the left of the screen and Click on the grey **View** button next to it.

5. Enter either the Lot/ DP number or the vol-fol number in the **Title Reference** box and complete the Captcha test as shown below. Be careful with the formatting. Lot/DP are formatted x/x while vol-fol are written as x-x

6. Click on the red **Perform Search** button.

You should then see the address as shown below.

If your search was unsuccessful please refer to the ***Guide to Historic Land Records Viewer (HLRV), SiX Maps and NSW LRS Online Portal*** available to use from the Information Desk for alternate methods of searching.
