

Student Learning Activity

Activity 5: Countries students in our class have travelled to on holiday

Survey the class – where have students in our class holidayed?

On a world map, make a tally of the different countries students have travelled to for holidays. Students analyse the results:

- What is the most visited country by people in our class?
- What is the second most visited country by people in our class?
- What is the third most visited country by people in our class?
- What countries have not been visited by people in our class?

As a class, discuss the reasons why students visit the most visited countries and why they do not visit the least visited countries.
